

FIVE DOT POST

WHOLESALE CATALOG 2024-2025

ABOUT FIVE DOT POST

Designed for the little moments and big feelings. When you can't find the words, send ours.

STORY

I started designing cards after my husband's cancer diagnosis in 2017. I noticed the fear of saying the wrong thing in important moments can often keep us from saying anything at all.

I wanted to help bridge that gap, so I used our motto "laughter is the best medicine" to design cards that make connecting simple during the good, bad, and messy moments of life.

IMPACT

A portion of all profits is given to esophageal cancer research.

STYLE

Our designs are relatable, funny, and just *hit differently*. We use high-quality materials that let your recipients know you care.

NAME

When Tommy had to have radiation for the first time in 2017, he had to get five tattoo dots on his chest for the procedure. I thought it was only fair for me to have to get five tattoo dots too. The five dots on my arm have since been a daily reminder that although Tommy is the one in treatment, this is our fight. When I started my second card shop a few years back, I didn't know what it might become one day, but I knew I wanted to build it upon deep love, support, and connection, thus, Five Dot Post was born.

REMEMBERING TOMMY

My sweet husband passed away from cancer last year. Tommy is the reason I started making cards and I will be forever grateful for his belief in me. He encouraged me every day, had faith when I had none, and is the reason I will keep living big the way he did and would want me to. Thank you all for supporting us and holding us these past four years. The cancer community held us up, gave me purpose, made us feel connected, and surrounded us with love at every step.
